World on Fire

As Lions

Hard to follow
What we see
All the sorrow
On the screen

Is it ever gonna change?
Ever gonna change?
Is it ever gonna change?
For real?

I see the light
I see a world on fire
I see the flames
And I fear for you and I
I see the blind
As they lead the blind
Open our eyes
Can we leave it all behind?
Leave it all behind
This worldâ€™s on fire

Is tomorrow
Just a dream?
Are we hollow
Underneath?

'Cause weâ€™ve gotta make a change
Gotta make a change
We have gotta make a change
For real

I see the light
I see a world on fire
I see the flames
And I fear for you and I
I see the blind
As they lead the blind
Open our eyes
Can we leave it all behind
Leave it all behind

This worldâ€™s on fire

This world has got to change
This world has got to change

Iâ€™ve seen the lights
Iâ€™ve seen a world on fire
Iâ€™ve seen the times
When I feared for you and I
Iâ€™ve seen the blind
As theyâ€™d lead the blind
Open our eyes
Weâ€™ll leave it all behind
The worldâ€™s on fire
Our worldâ€™s on fire
