Freedom (feat. Andrew B.)

Mario Sem

Of my story, of my life

i will say the reason why

i have followed in my mind

all the way to make me alive

all around, black and white

just the music print my life

and all i need i really find

the destination of my life

All the glory, bring me hight

all the pain i leave behind

feel the heartbeat in my mind

hear the music make me fly

All the sounds of the night

make me dream i'll " sing on live "

the only thing that bring me hight

looking the image of my life

of my story of my life

i will say the reason why

i have followed in my mind

all the way to make me alive

all around, black and white

just the music print my life

feel the heartbeat in my mind

hear the music make me fly

and all i need i really find

the destination of my life

the only thing that bring me hight

looking the image of my life
