

# Blazin'

## Bliss n Eso

Oh shit check it out just relax and sit back, forget about the riff raff, crack a six pack and  
blast off when you bump this shit, you're now rockin with the three rambunctious kids.

See this gentleman senses sentiment twenty, just pens of a gem with a venomous pen and it's a 10 out of 10  
yeah the crem de la crem and you dont know how i flip just like the end of the end so.

Grab a middy amongst the ass and titty we make it high gettin grown folk actin silly, this is my life and i'm so  
broke that's the dealy but it's alright coz my flow's so blazin really.

While you showboats poke ho's packin willys im on a mike like a slowpoke passin billys that's right, we  
straight lockin it down it's like left right next flight rockin your town.

We blazin'

So herd em up, put your hands in the air if your not a dork.

We blazin'

Time to amp the troops and feel the vibration from the stampin boots

We blazin,

With a nasty face that makes the bar shake and the glasses break

We blazin' blazin' blazin' on...

Well the beats are bangin and the bbq's burnin, and the heavier we get bro the higher the learnin, bitches that are  
fake ima show you where it's at like a system with a steak and a homer with a bat.

There ain't nothin that compares to jumpin on stage with the self satisfaction i got somethin to say, yeah we're  
comin your way with the southerners bounce, we're fuckin around i came in puffin an ounce and i was told as a  
kid that im not a success but as cold as it is im as hot as it gets.

I move mountains with nothin in my hands that modern day money motherfucker with a plan so knock down  
walls break the border but believin in no walls will shake em all up bliss n eso baby yeah we're blazin hot there  
aint nothin you can say or do to make us stop.

We blazin'

So herd em up, put your hands in the air if your not a dork.

We blazin'

Time to amp the troops and feel the vibration from the stampin boots

We blazin,

With a nasty face that makes the bar shake and the glasses break

We blazin' blazin' blazin' on...
