Parley

Modern Day Escape

So fire at will
give me one last chance to make it through
it's sink or swim, we're at the end
I can see for miles over the ocean
The castle walls are burning down
We've got to find our way outSo shed some blood and sink some ships
take all their gold, let us fight with them
we'll walk the plank, it seems like miles
Hear the cannons blow
it's sink or swim, we're at the end
I can see for miles over the ocean
The castle walls are burning down
We've got to find our way outi've got to find a way I've got to find a wayit's sink or swim, we're at the end
I can see for miles over the ocean
The castle walls are burning down
We've got to find our way out
it's sink or swim, we're at the end
the captain's going to sink the ship
