

Hyna Who Do You Love?

[LiL MoCo](#)

My pito bigger than your familes
Once i pull it out there more than happies
Ill be in the back truck with your mija
I pulled down my pants and i was like toma salchicha
Abra Cadrabra your more hotter than lava
I saw a dead man on the streets and he was bleeding
So i decided to check him for money
Then the cops and they took me
Yes i always wondered why
They told me how many hits did i take cuz they saw me high
I told them i didnt but that was just a lie
This was the begining, of a new fucken life
Yes a life without a wife
We don't really need a wife just so cook for us and do all the fucken chores
Once i put my dick up her pussy then she starts to roars
