

# Prayers

## Gadgets

[Incomprehensible]Breathing in and breathing out  
My head leaned back, my hands are tied  
I stand in here alone I scream  
Questions why  
Days slip by and nights I taste  
These memories run through my veins  
Injecting me with one last kiss  
Screaming why  
This medication can't save me  
And desperation takes hold of me  
I wanted to believe in all of this  
And I wanted to believe in you  
(You believed in me)  
All I am, all I have  
Leads me down these roads again  
Take my hand, show me the way  
And never bring me back here  
Determination is pushing me  
And perseverance is what I bleed  
I wanted to believe in all of this  
And I wanted to believe in you  
(You believed in me)  
All I am, all I have  
Leads me down these roads again  
Take my hand, show me the way  
And never bring me back here  
These are my unanswered prayers  
The time has come for me  
To say goodbye  
God please hear me calling  
All I am, all I have  
Leads me down these roads again  
Take my hand, show me the way  
And never bring me back here  
Never bring me back here  
Never bring me back  
These are my unanswered prayers  
The time has come for me  
To say goodbye

God please hear me calling
