

# Old Town New

Tim McGraw

On a lover's leap  
With a freeway view  
Sittin' on my hood  
Thinkin' bout you Going over in my mind  
Every kiss and every fight  
Yeah, the fool on the hill  
Is beating down another night There were days so hard  
I thought I had to go  
I'd get in my car  
And just follow the road But this is my home  
And it's who I am  
And I know I'd stay  
If I could make this Old town new again  
Color other than blue again  
I'd have something to do again  
Instead of thinkin' about you again But the people I know, the places I go  
Remind me of you  
Oh, somebody come around  
And make this old town new There were nights so long  
I thought the sun burned out  
And there were girls so wrong  
I don't wanna talk about I was burning up the night  
Yeah, in an alcohol flame  
Lightin' up my way  
Trying to make this Old town new again  
Color other than blue again  
I'd have something to do again  
Instead of thinkin' about you again But the people I know the places I go  
Remind me of you  
Won't somebody come around?  
And make this old town new Yeah, the people I know and  
The places I go remind me of you  
Oh, love goes wrong but life goes on  
And I know what I gotta do I'm just hangin' around  
Tryin' to make this old town new  
Yeah, yeah, yeah Hey, won't you come on, come on  
Come on, come on around here?  
Hey, won't you come on, come on  
Come on, won't somebody come around here please?
