

Save Me

Above & Beyond

He wants to hold the children up high
When they come tearing through the ride
To save you from falling
To save them
From falling He wants to bring a little bring a little honey
To the saltiness of grief
To come up from underneath, you used to say
you would rescue me
You yourself
Lost at sea Save me and I'll save you
Save me and I'll save you
Make ways to get through
Together
Save me and I'll save you
Save me and I'll save you
Make ways to get through
Together Save me and I'll save you
Save me and I'll save you
Make ways to get through
Together
