Advisory - the following lyrics contain explicit language:

Take me out and we'll care about

Nothing real, nothing real, real at all
Pick me up and we'll make shit up
As we go, as we go, go alongTake me out and we'll karaoke
Tonight we feel famous, don't we?
Pick me up and we'll make a movie
I'm acting like the world can't hold me down, down, down
They'll never hold me down, down, down
We'll pass the mic around, around, around, aroundTake me out and we'll carry each other home
Through the lights, through the crowd
Pick me up and we'll make shit up
So it feels like it's real here and nowTake me out and we'll karaoke
Tonight we feel famous, don't we?
Pick me up and we'll make a movie
I'm acting like the world can't hold me down, down, down
They'll never hold me down, down, down
We'll pass the mic around, around, around, aroundTake me out and we'll care about
Nothing real, nothing real, real at allTake me out and we'll karaoke
Tonight we feel famous, don't we?
Pick me up and we'll make a movie
I'm acting like the world can't hold me down, down, down
They'll never hold me down, down, down
We'll pass the mic around, around, around, aroundTake me out and we'll karaoke [2x]
