Breathe

Tut Tut Child

Lay down staring at the sunset
And I wonder how it all came down to this
One moment
Think of all my dedication
And I wonder how it all came down to this
One momentSometimes when nothing's going right
I wish that I could go back in time, back in time
Tonight I feel the tides moving
And this is bigger than me
Now I need to breatheNow I need to breathe
Now I need to breatheI tried going through the motion
Hit bottom of the ocean
Seeing my life pass me byBut I found what I need here
I know it will never be easy
Now I think I'm ready to break freeSometimes when nothing's going right
I wish that I could go back in time, back in time
Tonight I feel like I'm moving
And this is bigger than me
Now I need to breatheLay down staring at the sunset
And I wonder how it all came down to this
One moment
Think of all my dedication
And I wonder how it all came down to this
One momentSometimes when nothing's going right
I wish that I could go back in time, back in time
Tonight I feel like I'm moving
And this is bigger than me
Now I need to breatheNow I need to breathe
Now I need to breathe
Now I need to breathe
