

Thief

Kosheen

Stolen not shared
You thief
I thought you were an angel Reluctant to recognise
It's over You want it back
You keep your reason I don't want it
You want it back
You keep your freedom I don't want it
You want it back
You keep your jacket I don't want it
You want it back
You want it You want it back
You keep your freedom Shaken, I'm scared
I thought you'd make it easy
Our failure to read the signs
That said it's over You want it back
You keep your reason I don't want it
You want it back
You keep your freedom I don't want it
You want it back
You keep your jacket I don't want it
You want it back
You want it You want it back
You keep your freedom Keep your freedom
Keep your freedom You want it back
You keep your reason I don't want it
You want it back
You keep your freedom I don't want it
You want it bac
You keep your jacket I don't want it
You want it back
You want it You want it back
You keep your freedom
