

Pressure

Dirty Vegas

Waiting, watching you, waiting, watching you
Waiting, watching you, waiting, watching you
Waiting, watching you, waiting, watching youWaiting, watching you, waiting, watching you
Waiting, watching you, waiting, watching you
Waiting, watching you, waiting, watching youWaiting, watching you, I feel the need
Lost in this moment and I cannot breathe
More that I won't you and more that I get
Can't shake this fever that's making me, making meHeart is connected and our lips entwined
Show me your secrets and I'll show you mine
The temperature's rising and I feel the heat
My heart is pumping locked to this, locked to this beatMaking me, making me sweat
Can't take this pressureWaiting, watching you, waiting, watching you
Waiting, watching you, waiting, watching you
Waiting, watching you, waiting, watching you
Waiting, watching youWaiting, watching you, I feel the need
Lost in this moment and I cannot breathe
More that I won't you and more that I get
Can't shake this fever that's making me, making me sweatCan't take this pressure
Pressure, pressure, pressure
