Careful What You Wish For

Meredith Brooks

Snap your fingers and they come
Running to you, awesome one
Getting lonely out in space
It's not such a special placeOn the outside looking in
At the bad girl you've been
Isn't this what you've always wanted?
Isn't this how you've saw the view?
Careful what you wish for
It just might come true, might come trueYou say catch me when I spin
As if we've been through thick and thin
I don't think that you can stop
You still want what you ain't gotSuch a stupid superstar, yeah, you are
Isn't this what you've always wanted?
Isn't this how you've saw the view?
Careful what you wish for
It just might come true, might come trueIsn't this what you've always pictured?
Isn't this what you plan to do?
Careful what you wish for
It just might come trueI'm trying to find the meaning of life
In a deeper shade of red on your lips
Tryin' to find a way to be loved
Without ever givin' a shitBut enjoy it while you can
After all the jagged ends
You come around again
And again and againIsn't this what you've always wanted?
Isn't this how you saw the view?
Careful what you wish for
It just might come true, might come trueIsn't this what you've always pictured?
Isn't this what you plan to do?
Careful what you wish for
It just might come true, might come true
Isn't this what you've always wanted?
