

If I Lost Her

[Joe Diffie](#)

Darlin', as I look at you
It reminds me of how much in love I am
Oh, I'm a lucky man
It won't mean love that's in your eyes
Only makes me realize where I should be
And it's time to leave
'Cause you've made me think of her
And what our love was worth, she's all I'll ever need
And I appreciate the drink and thank you for the dance
And the chance to see, if I lost her, I couldn't live with me
I can't remember what it was
That made me say those hurtin' words tonight

What a silly fight
So at the risk of being rude
I'll say goodbye and promise you
I won't forget what you just did
'Cause you've made me think of her
And what our love was worth, she's all I'll ever need
And I appreciate the drink and thank you for the dance
And the chance to see, if I lost her, I couldn't live with me
And I appreciate the drink and thank you for the dance
And the chance to see, if I lost her, I couldn't live with me
