Never Had It so Good

Jessica Andrews

They could look all their lives
And not find what we've got
Up and down, all around beneath every rock
Our love is one of a kindWhere you took my heart
Is a whole different trip
It's a new cup of tea, I live for each sip
Our love intoxicates my mindYour kisses tell me more than words can say
Your touches, they just take my breath awayWhen we're together
Nothing could ever be better
Don't you know that I have never
Never had it so good
Never had it so, never had it so good?Round the block, round the world
We can go anywhere
Do a dance, sing a song we can do what we dare
Our love is gonna take us thereYour kisses tell me more than words can say
Your touches they just take my breath away, yeahWhen we're together
Nothing could ever be better
Don't you know that I have never
Never had it so good
Never had it so, never had it so good?When we're together
Nothing could ever be better
Don't you know that I have never
Never had it so good
Never had it so, never?When we're together
Nothing could ever be better
Don't you know that I have never
Never had it so good
Never had it so, never had it so good, so good?
