

# All of Those Vampires

## Burning Image

You say that I am home now  
But I don't feel that it's right  
So, what the difference?  
They want to hold you I can tell you  
That you won't go  
We are all your friends here and we will show you All of those Vampires  
They come to see me  
Cause I'm what they desire  
I'm what they're looking for We'll say when you will go down  
But don't you see, it's our right  
You feel the distance  
When we control you I can tell you  
That you won't go  
We are all your friends here and we will show you Repeat chorus
