

Living On Love

Family of the Year

Living on love
Living on love and libations
No complications
Living with no complications
While we're living on love
Living on love and libations
Everyday's a celebration, a special occasion
With our friends
Walking and talking, crying from laughing
Feeling OK when I hear you singing
Don't say you're sorry the love that you're bringing
Is bringing me on They say that you can't get every
Little thing that you want
Take another picture & compare
It to the things you haven't got
Woooah It's such a lie !
It's such a lie ! Living on love
Living on love & libations
Everyday's a vacation
Living with no complications They say that you can't get every little thing that you want
Take another picture and compare
It to the thing you haven't got
Woooah It's such a lie !
It's such a lie !
