Truth in You

Vampires Everywhere

Sew my thoughts with rusted nails (rusted nails)
Curse my soul it's more than this (more than this)
I can't believe I saw the Truth In You
Take a breath before you speak
Take a breath it's all you need
It's time to testify
One more time to save your life

I won't let you out alive
We'll set your soul ablaze tonight
I won't let you out alive
We'll set your soul ablaze tonight

Let a kiss to slow me down (slow me down)
As I kiss the lips, watch me drown (watch me drown)
I swear I've always known the Truth In You
Take a breath before you speak
Take a breath it's all you need
I won't sacrifice a second more to save your life

I won't let you out alive
We'll set your soul ablaze tonight
I won't let you out alive
We'll set your soul ablaze tonight

Our black heart
It's our black heart
Our black heart
Conquer right one last time
Our black heart
It's our black heart
Our black heart
Conquer right one last time

Take a breath before you speak
Take a breath it's all you need

I won't let you out alive
We'll set your soul ablaze tonight
I won't let you out alive

We'll set your soul ablaze tonight

Our black heart
It's our black heart
Our black heart
Conquer right one last time
Our black heart
It's our black heart
Our black heart
Conquer right one last time
