[R. Kelly](#)

Advisory - the following lyrics contain explicit language:

[Intro: R. Kelly]

I'm about to switch it up

Switch up, switch up, switch up, switch up[Verse 1: R. Kelly]

If she ain't fuckin', I'ma switch up

Hit her friend's cell like, "What up?"

I don't ever change, real nigga

I be there when her man slip up

I'll disappear in that 'Lago

Then reappear in that Ghost

I hit it hard from the back

And then I let Uber get her home

Same shit, new day

New bitch, new brain

Got my cell twerkin'

But I forget their names

Got a million dollars in the club

So it ain't shit to throw it up

But real talk, I'ma switch it quick

If them bitches ain't tryna fuck[Chorus: R. Kelly]

We been here before

Same shit, new day

Same drama anyway

Baby ain't shit changed

Guess I gotta hit you with the switch up

Switch up, switch up, switch up, switch up

Guess I gotta hit you with the switch up

Switch up, switch up, switch up, switch up

Call now, now then pick up

I'm about to hit you with the switch up

You done got way too comfy

Girl you ain't the only one that want me

Hit you with the switch up

I'm about to hit you with that switch up
I'm about to hit you with the switch up
Baby watch me switch up[Verse 2: Jeremih]
Don't make a nigga hit you with the switch up
You know what I'm on when I hit you
Been a real nigga, I don't switch up
Dick up in her, make her get the hiccups
When her man call, she don't pick up
I ain't even worried 'bout it
Baby let's try a new position
Elbows to her knees like a sit-up
New ocean, new wave
New bitch, new day
New Ghost, new Wraith
Lights down, no way
I'ma have to hit you with the switch up
Switch up, switch up, switch up
I'ma have to hit you with the switch up
Might just send a Uber, pick a bitch up[Chorus: R. Kelly + Jeremih]
We been here before
Same shit, new day
Same drama anyway
Baby ain't shit changed
Guess I gotta hit you with the switch up
Switch up, switch up, switch up, switch up
Guess I, guess I gotta hit you with the switch up
Switch up, switch up, switch up, switch up
Call now, now then pick up
I'm about to hit you with the switch up
You done got way too comfy, baby
Girl you ain't the only one that want me
Hit you with the switch up
I'm about to hit you with that switch up
I'm about to hit you with the switch up
Baby watch me switch up[Verse 3: Lil Wayne]
Pull up in the car with the lid up
Pull up with a broad and she did up
Pull her out the car if she spit up
Take her ass home, eat her clit up
Body like a pinup, I hit it with my chin up
Tell her call a friend up, and if she acts stuck up
There's plenty fish in the sea with their fin up
Then I gotta hit her with the switch up
I got another bitch comin', gotta clean up
But if pinched up is how a nigga end up

You know I make sure I hit her with the pre-nup
I got styrofoam cups, she got D-cups
She call me every day tryna re-up
I just cut on R. Kelly and I put it in her belly
And I gotta switch up, no re-runs, Tunechi [Chorus: R. Kelly]
We been here before
Same shit, new day
Same drama anyway
Baby ain't shit changed
Guess I gotta hit you with the switch up
Switch up, switch up, switch up, switch up
Guess I, guess I gotta hit you with the switch up
Switch up, switch up, switch up, switch up
Call now, now then pick up
I'm about to hit you with the switch up
You done got way too comfy, baby
Girl you ain't the only one that want me
Hit you with the switch up
I'm about to hit you with that switch up
I'm about to hit you with the switch up
Baby watch me switch up
