Baby Talk

Alisha

It's too bad not to know
I don't know, I hurt you so
Baby talk to meI'm so sad, I can't wait
Baby, please don't hesitate
Baby talk to meYou never try to talk your feelings through
Communications start from me to you
We have to talk it through to clear the air
We've got to talk to show the love we shareBaby talk
We can work it out
Baby talk
I know without a doubtBaby talk
We can work it out
Baby talkBaby, please talk to me
Can't you see you're hurtin' me
Baby talk to meWe can see all this through
Talk will help both you an me
Baby talk to meIt's hard to tell when things start goin' wrong
We'll have to talk now, before too long
So, honey, let's not throw our love away
Let's try to work it out before too lateBaby talk
We can work it out
Baby talk
I know without a doubtBaby talk
We can work it out
Baby talkYou don't have to worry, baby
You don't have to fear
Tell me all the things you feel
And I will make you careYou just need to tell me, baby
What I need to say
I need to let you love me, baby
In that special wayYou just need to tell me, baby
What I need to say
I need to let you love me, baby
In that special wayBaby talk
We can work it out
Baby talk
I know without a doubtBaby talk
We can work it out
Baby talkBaby talk

Baby talk
Baby talk
Baby talkBaby talk
Baby talk
Baby talk
Baby talkBaby talk
We can work it out
Baby talk
I know without a doubtBaby talk
We can work it out
Baby talkBaby talk
We can work it out
Baby talk
I know without a doubtBaby talk
We can work it out
Baby talkBaby talk
We can work it out
Baby talk
I know without a doubtBaby talk
We can work it out
Baby talk
