

The Kiss

Karina

I know we don't belong
Everyone says it's wrong
We come from different ways
So I tried to erase everything that I felt
That I feltChorus

Then you kiss me and suddenly I don't care any more
Something in me tells me you're the one I'm looking for
Then you kiss me and suddenly I don't care any more
Something in me tells me you're the one I'm looking for

From the kiss
From the kissMy heart is getting loud
I'm trying to keep it down
I wish the world could hear
But I can't help but fear that they'll take you away
You awayChorusBridge

Palm to palm
Let lips do what hands do
They pray
Is it a sin

To do what we want to?
Don't care where we've been
Give me my sin againChorus
