

Tenderly (feat. The Nightingales)

[Arnold Zamora](#)

Tenderly

Why do you stand aside
In times so hard you seem to hide
How do I live my life each day
When you're not here to stay

All these questions looking for reasons
(1) to take away my doubts and fears
(2) that I may see the light of day

But tenderly you hold me
And listen to my plea
In one moment you make me see
that you were always here with me

And tenderly you show me
that you love me endlessly
as you touch my life
the reason to survive

What would I ever do
to always trust and walk with you
Where do I ever find a way
The dark leads me astray

No more questions
Only reasons to live my life for you
