

# Boys Will Be Boys

Goldfrapp

I've had nights I will never forget  
I've had nights I will always regret  
But I can take it on the chin and say  
Boys will be boys There's been girls that have stolen our hearts  
But their arms couldn't simply be prised apart  
They will never let us in and say  
Boys will be boys Boys will be boys  
We cheat and we lie  
Boys will be boys  
Boys will be boys I've had nights I will never forget  
I've had nights I will always regret  
They will never let us in and say  
Boys will be boys
