

Just Like You Said

Seal

I, I am so unsure
Every minute that waits
Every second that I'm away
From you Don't you know that love, love, love, love
Is a way that, that has no rules
Know that I'm loving you
Even if it's a fool that waits in vain
Waits in vain Yesterday it hit me, I felt we were slipping away
Say you if you can it's okay, just like you said, way then
Sometimes I fall and I feel like, I don't know the way
Say if you can it's okay, just like you said then
Just like you said Now, now my days become long, okay
I know I, I know I'll never be the same, the same again
So please don't let, don't let my lows bring you down
Always try to know that I need you, yes I do, oh Yesterday it hit me and I felt we were slipping away
Say if you can, it's okay, just like you said, way then
Oh sometimes I fall and I, I feel like I don't know the way
Won't you say if you can, it's okay, just like you said then
Just like you said, oh Yesterday it hit me and I felt we were slipping away
Say if you can it's okay, just like you said, way then
Oh sometimes I fall and I feel, I don't know the way, no
Won't you say if you can, it's okay, just like you said then
Just like you said, oh, just like you said then, yeah
Just like you said, oh, just like you said way then, then
Just like you said
