## Iron Fire

Safe to kill  
It all comes back  
Or stick it out  
Wage my own attackLift me up  
Through what I've found  
Bite my lip  
How far down is down?Time to take  
What I know  
Keep it in  
Live here all aloneWhat's the worst  
Or better dead  
Wear it out  
Pain is in my headIron head
