

Clean Break

[Matt Schofield](#)

Looks like we're finished, so you better stake your claim
Make an offer, yeah I'll do the same
No getting back, the blood, the sweat, the tears
Let's walk away by making good on all the years
For a clean break, cut the cord
Clean break, wipe the slate and close the door
Looking at the history there is nothing else to do
Clean break now is the best for me and you
Stakes are too high to keep playing at your table
Can't lose it all, I'm out while still able
Time for separate ways, we gave it our best shot
Quit while we're standing, and forget the sunken costs
For a clean break, kill the lights
Clean break, you're turning left, I'm going right
Time to take a different road as far as I can see
A clean break now is the best for you and me
Now you take your half, and I'll just keep what's mine
Cut it down the middle, let's get it straight this time
No more fighting about who was right or wrong
Stop the bleeding, get out of line and let's move on
For a clean break. draw the curtains
Clean break, yes I'm certain
To keep on playing, now I'd be out of my mind
Clean break now, you get yours and I get mine
Yeah, I need a clean break
Clean break baby
I need a clean break
Hey...
