Better Days

Biohazard

Times are changing, things come and go
Things are getting worse, the earth, a black hole
I say it to myself, "Will this shit ever change?
Will it ever improve or will it stay the same?"It's plain to me that things are amiss
Because I've seen better days than this
How could we let it get as bad as it is?
Because I've seen better days than this
It's plain to me that things are amissFamine and war, hate and disgrace
Incest and murder, raping the rat race
I see no end to this suffering
Faith, hope and love are burnt offeringsIt's plain to me that things are amiss
Because I've seen better days than this
How could we let it get as bad as it is?
Because I've seen better days than this
It's plain to me that things are amiss
