

# Howl At the Moon

## StadiumX & Taylr Renee

Hello, you're quite beautiful yellow  
My soul's exposed  
I yearn to feel the changeAll through my body burns something exciting  
All through my body burns something exciting  
All through my body burns something exciting  
Howl at the moonI see the world with eyes of desire  
A warm blooded beast  
With a beautiful smile  
All through my body burns something excitingÂ”  
All through my body burns something exciting
