Smoke A Little Smoke

Eric Church

Turn the quiet up, turn the noise down
Let this ol' world just spin around
I wanna feel it swing, wanna feel it sway

And put some feel good in my soulDrink a little drink, smoke a little smokeWant a little more right and a little less left

Little more right now, a little less what's next

Act like tomorrow's ten years away

And just kick back and let the feelin' flowDrink a little drink, smoke a little smokeI set my sails for a new direction

But the wind got in my way

I changed my course but my definition of change

Just ain't the sameI'm gonna sit around here, stay away from there

I'm gonna make pretend I just don't care

I could get up, go get her back

Or maybe I'll just let her goDrink a little drink, smoke a little smoke, yeahYeah, go get her back

Drink a little drink, smoke a little smoke

Drink a little drink, smoke a little smokeKick back, give the blues spin

Break out the wine, forget again

Dig down deep, find my stash

Light it up, take me backKick back, give the blues spin

Break out the wine, just forget again

Dig down deep, find my stash

Light it up, memory crashOh no, I don't know, baby, might take all night

Better maybe break out that old rock and roll

Drink a little drink, smoke a little smoke

Gonna drink a little drink, smoke a little smoke
