We Hunger

Siouxsie and the Banshees

A ravenous greed for a brood to feed
A lusting spawn on a weekend fawn
Do you hunger for this, hunger for this?Sucking leaches feel the need
Sucking dry unsated stomach pops
Sharpened knives, oh, with flying sparks
Sagging bodies with stretch marksAnd your belly aches
Do you hunger for this, hunger for this?
Hunger for this, bled white with avariceAs the rust creeps
Corrosion seeps a rotting seed
Eat me, oh, feed me
With your belching foul breathYour destructive kiss, death
Do you hunger for this, hunger for this?
Hunger for this, just a taste of a sweet kissShanghaied on a locust flight
And the thirst from a vampire bite
Fills the emptiness inside
Consuming everything green eyed
We hunger, we hungerWe are hunger for this
Hunger for this
Hunger for this
The bliss of a sweet kissHunger for this
(Hunger for this)
Hunger for this
(Hunger for this)
We hunger, we hungerWe're hunger for this
(Hunger for this)
Hunger for this
(Hunger for this)
We hunger
