

Deep River

Jon Allen

I've been torn down
I've been kicked around
Waiting for the war to end

It's been a long time
Since I crossed the line
where the weeping willows bend

I'm going back to start anew
To shed these scars
Way out in the blues

Deep river rolling
Where I need to go
Give me the answers
That only you know

Rivers in me
It's all I wanna be
I just have to let it run

All the changes
That its course arranges
All the deeds
That must be done

Tears of joy and tears of pain
The river takes them
Takes them all the same

Deep river rolling
Where I need to go
Give me the answers
That only you know

Doing all I can
Follow nature's plan
Hold on to the hand of fate

Maybe I'll see the sun

Setting on the way I've come
Before the evening gets too late

Deep river rolling
Where I need to go
Give me the answers
That only you know
