

Skit (Alternate)

Mobb Deep

It's about to go down real fast and quick
We's about to go to war with these shotties and clips
Somebody's gonna get murked in the streets of New York
I keeps it thoro because i holds down the fort
My nigga Ski got it under control
And I will not stop what I'm doing till I get to old
Cause the streets needs me right now to make hits
And represent the hood I rep on my hits
On a song I talk about drugs and money
Selling coke and watcing crackheads live bummy.
