

Supernatural

Cowboy Junkies

Built a king on compliments
Charisma and advertisements
Still they see him shimmer ephemeral
It ain't supernatural, no It ain't supernatural
Supernatural, baby An out of body experience
I flew around the hospital room once
On intravenous Demerol
It was supernatural, no It was supernatural
Supernatural maybe Sudden smell, a certain view
Sparks a whoppin' case of the dj vu
Is it inexplicable? It ain't supernatural, no, no
It ain't Supernatural
Supernatural, baby
