Centerfold

TQ

I'm on the rebound, I get it where I want to I'm on the way down, I'm getting fixed without you You gave me a band-aid, I put it on my heartbreak And all you got is pictures in your handDon't you wish you could hold The angel in the centerfold? The fantasy you couldn't control Who walked away from youDon't you wish that you could hold The pretty little paper doll? The one you couldn't quite control Who walked away from youFlip to me, I'm the centerfold I'm gonna charm you all night Stick to me, I'm the centerfold We're gonna go, oh, hold tightI'm gonna hate you, 'til I forget you So here's a keepsake, I left it in the bathroom Just a little something, something to remind you The joy you'll never get this close againDon't you wish you could hold The angel in the centerfold? The fantasy you couldn't control Who walked away from youDon't you wish that you could hold The pretty little paper doll? The one you couldn't quite control Who walked away from youFlip to me, I'm the centerfold I'm gonna charm you all night Stick to me, I'm the centerfold We're gonna go, oh, hold tightFlip to me, I'm the centerfold I'm gonna charm you all night Stick to me, I'm the centerfold We're gonna go, oh, hold tightNow, it's him but it could've been you Tell me why it's him, when it should've been you? It's crazy how this makes you wanna changeHere's an image you won't forget All your life I'll tease, I'll torment I'll be gone as soon as you turn the pageDon't you wish you could hold The angel in the centerfold? The fantasy you couldn't control Who walked away from youDon't you wish that you could hold The pretty little paper doll?

The one you couldn't quite control
Who walked away from youFlip to me, I'm the centerfold
I'm gonna charm you all night

Stick to me, I'm the centerfold We're gonna go, oh, hold tight
