

Glow

Kopek

I got to be a rolling stone
Now I don't need no home
I beat a hound trying to get fat
Now I'm seeing red, left one more dead
Wanted on the street, until your debt gets paid
Yeah, I'm a freak show that's on display
I got to get me out tonight
The ball is rolling, feeling golden

Glow, show, flow
I am rebel running free
So come on let's just beat it

Whatever I take, I'll give right back
So come on let's start believing
I'm already running out of track
I'm rolling and jumping, I'm ready to go
Coming in the bathroom, can't be low
So come on, let's get a feeling
A love in the bonfire to explode

I hit the bar in the dead of night
I'll be a bullet riding through the night
Don't need a place for my head to lay
It's a dark and crazy world remains it
I found some tail, that I wanna chase
She took me home, feed them to my face
A little bit of flack, but won't be long
If you needed me, give me a little

Glow, show, flow
I am rebel running free

So come on let's just beat it
Whatever I take, I'll give right back
So come on let's start believing
I'm already running out of track
I'm rolling and jumping, I'm ready to go
Coming in the bathroom, can't be low
So come on, let's get a feeling

A love in the bonfire to explode

So come on let's just beat it
Whatever I take, I'll give right back
So come on let's start believing
I'm already running out of track
I'm rolling and jumping, I'm ready to go
Coming in the bathroom, can't be low
So come on, let's get a feeling
A love in the bonfire to explode
