Memory Daydreams Lapses

OSI

Down in the boat it was strange not to know what to say thought I would float but the rain didn't come anyway. The next time we meet here you better bring matches (a loss has occurred or may occur)
I'd rather it burn than collapses (a loss has occurred or may occur) I heard the question but I lost my line again (a loss has occurred or may occur) to memory daydreams and lapses (a loss has occurred or may occur). Down in the boat it was strange not to know what to say thought we could float but the rain didn't come anyway. I wanted to speak to you over and over but never could get me to call. I wanted to talk to you over and over but never could get me to call and I hated your friends best of all.
