

# The Good Fight

## Birds of Chicago

There is a road covered with leaves now  
Between the rows  
Of the cedar trees now  
All the way back home troubles behind you  
Peace came slow  
At last it found youIn the eye of the sparrow  
There's a dream of a golden summer  
And in that summer dream  
You can hear your mother singing  
From the front seat  
Baby you can drive my car and maybe  
I will love you  
So long buddy say goodnight  
bless your soul travel light  
You never walked away from a good fight  
And you loved this world with  
All your might I know  
I know I know  
Shadow and stone  
Wind and the rain falling  
The love you've known  
Voice of your daughter calling  
Hey hey my my  
We rocked around the sun yeah  
Give back your light

Your work is done now from the Beatles " Baby You Can Drive My Car"
