Heart Is Right

Carlene Carter

Love lifts me up
When I'm down at heart
And fills me with a hope
That we can start
To change the way we feel
With just a glimpse of something real
Every night we hold on tight
Love makes us strongIf your heart is right
You can't go wrong
You can't go wrongWhen the world is wicked
And worse for wear
Love's the ticket to anywhere
It's a journey deep inside
Lift you up into
The wild blue sky
A better life clear in sight
So come alongIf your heart is right
You can't go wrong
You can't go wrongWhat a complicated
Work of art
This power driven thing
We call the heart
It runs on pure emotion
Stronger than a ragin' ocean
Heaven knows how it flows
On and onIf your heart is right
You can't go wrong
If your heart is right
You can't go wrong
You can't go wrongIf your heart is right
You can't go wrong
If your heart is right
You can't go wrong
You can't go wrong
You can't go wrong
