Gyroscope

In Flames

Geology is digging through my brain
A manta engulfing the world
To throw it up once again
To a guild of lifted daggersNeo-wolf, but older again
Than the Lupus itself
Linked its fur to the gyroscope of time
A collection of failuresA diabolical sequence of stabs
Written in cutting stone
From the fossilized den of thieves
Our lives dieNeo-wolf, but older again
Than the Lupus itself
Linked its fur to the gyroscope of time
A collection of failuresI see the nursing all mother
Spitting out a trail of termites
In the mouth of her first born hope
Breasts ripe with smog filled rebellionApathy dressed in violence
White insectoid legs
Curse her lips and her mouth
Receptive only to painBut older again
Than the Lupus itself
Linked its fur to the gyroscope of time
A collection of failures
