

I Only Wanted You

Marie Osmond

I never wanted that mansion on a hill.
I never needed that Cadillac Seville.
I only wanted you
I only wanted you. I never wanted those diamonds on my hand
I was happy with just a wedding band.
I only wanted you
I only wanted you. I just wanted to have your arms around me.
I just needed to feel your love surround me.
And now that we're apart, it breaks my heart in two.
"cause you never really had a clue I only wanted you. Instead of always giving me something else
I wish just once you'd given me yourself.
I only wanted you,
I only wanted you. I just wanted to have your arms around me.
I just needed to feel your love surround me.
And now that we're apart, it breaks my heart in two.
That you never even had a clue, I only wanted you. I only wanted you...
I only wanted you.
