Worth Wondering

Bronze Radio Return

Four long years
I don't know where I've gone
But I'm awake now, so withdrawn
Like pennies on the beachKing kills pawn
No one sheds a tear
Life goes on
And the world gets colder every year[Chorus:]
And you decide when you come or go
And you kept me wondering if you'll let me know
And I've waited in the shadows down below
And you've kept me wondering if it's worth wondering
And you've kept me wondering if it's worth wondering
And you've kept me wondering if it's worth wonderingAll my thoughts, crowd my head
And sweat inside my mind
Perspiration drips
And waters down the time
Like sea glass tumblingAll your dreams, lost among the wind
Get trapped inside my net
And I'll place them, in the sauna in my head
Where they'll melt together there
Where they'll melt together there[Chorus:]
And you decide when you come or go
And you kept me wondering if you'll let me know
And I've waited in the shadows down below
And you've kept me wondering if it's worth wondering
And you've kept me wondering if it's worth wondering
And you've kept me wondering if it's worth wondering
