

Live

Jiva

Another sinking sun
And I am filled with worry
With every morning comes
 Uncharted territory
Am I too young and restless
To live the way the fearless do?

I think it's time I start to...
 Live
 Unafraid of tomorrow
 Live
 Knowing You're in control
 Live
This life wasn't made to waste away
 I wanna live

Take my concerns and cares
 Give me new revival
 I may be breathin' air
But You're my soul survival
 I wanna know the freedom
That can only come from You

I'm so tired of waiting
There's no more time to lose
So give me strength to move
 To live
