Giant

Saga

Looking back I can still remember
The day a stranger came to town
He didn't say much of anything
So why did everybody
Try and put him down?
I must admit that he looked
A little different
Maybe we just didn't understand
I knew that he'd never
Fit into the system
But from his eyes I could
See he had a plan
There was a moment of real hesitation
They didn't like a stranger
Playing the game
But if he was faced with
That kind of situation
Wasn't that the time to make change?
[Chorus]
As time goes by
There's one thing I have come to realize
The time goes by
Never let yourself force to be compromised
But even now I remember
The way you made me feel
And I've been living with the question
Where are you now?
All Change!
As time goes by
There's one thing I have come to realize
The time goes by
Never let yourself force to be compromised
As time goes by
There's one thing I have come to realize
The time goes by
Never let yourself force to be compromised
As time goes by
There's one thing I have come to realize
The time goes by

Never let yourself force to be compromised
As time goes by
The time goes by
As time goes by
