

Whitehill (feat Piper Davis)

[Dave DK](#)

??? are you ready for this?
stood still and all went into the mist
go so fast you run out of money
let the past run out again
??? and are you ready for this? off and??? free of???
one change of love and on to the next
go so fast but where are you going?
brand new world you're out again
??? and are you ready for this
