

# My Only Friend

## Opal

Billie, you're a miracle and God knows, I need one  
Sing me something terrible that even dawn may come  
You and me, we don't believe in happy endings  
Hey, Lady Day, can you save my life this time?  
Can you cry so beautifully, you make my troubles rhyme?  
Hey, Lady Day, can you save my life again?  
My only love has gone away

Will you be my only friend?  
Billie, you're a genius, enough to be a fool  
A fool to gamble everything and never know the rules  
Some of us can only live in songs of love and trouble  
Some of us can only live in bubbles
