# I Know

## The Explosion

I know some by you
It's a secret some by you
And it's keeping us underground
It's keeping our hands folded, foldedI know some went wrong
It's nothing some went wrong
And it's holding it's holding our tongues
It's a sterilizationI know some by you yeah
I know some by you yeah
I know some by you yeahI know some by you
It's a secret some by you
And it's keeping us in the crowd
It's keeping our mouths open, openI know some seems wrong
So I'm guessing some went wrong
And it's creepin' into our heads
It's a mobilizationI know some by you yeah
I know some by you yeah
I know some by you yeahI know some by you yeah
I know some by you yeah
I know some by you yeahWhen the sky fills up with secrets
And the ground opens up and it swallows you
When the sky fills up with secrets
And the ground opens up and it swallows you
When the sky fills up with secrets
And the ground opens up and it swallows youWhen the sky fills up with secrets
And the ground opens up and it swallows you
When the sky fills up with secrets
And the ground opens up and it swallows you
When the sky fills up with secrets
And the ground opens up and it swallows youI know some by you yeah
I know some by you yeah
I know some by you yeahI know some by you yeah
I know some by you yeah
I know some by you yeah
I know fuck you
