## Oscar and the Wolf

Got me dreaming  
Now I'm losing like before  
Got me dreaming  
I ain't leaving like before Come see me in the night  
Don't leave me in the daytime You're a target without a warning  
Do you want more?  
And I want you when I see you dancing  
So track my fear and fever  
You're the night, chase my skin  
Track my fear and fever  
Give me fire kissing Come see me in the night  
Don't leave me in the daytime
