

# Horrorshow

## Halows Eve

There exists two worlds for you one is false and one is true  
I have lost my shirt my friends paranoid vision,  
my brain is mildew I lost reality long ago now I live in a Horrorshow!  
    reality is a tightrope trick once fell,  
real beasts devour quick my fictional beasts are real to me my very thoughts  
    a caustic I lost reality long ago now I live in a Horrorshow!  
    Truth, fiction, one and the same one is real,  
    the other to blame I don't care what your bishops say truth  
    shall eat the skull of the lame I lost reality long agonow  
    I live in a Horrorshow!
