Yesterday

Stereomud

I cannot believe we did it
When everybody thought we couldn't
Did anything it took admit it
Looking back we won't forget
Everything we've seen
And everything we've been
How did this begin? Someone said to me
"How's it going to be if it ever ends?"
I don't know will it end? I don't know when
We'll never forget what we did yesterday
I don't foresee it, faced it all
Did our best we learned from yesterday a lesson
There's such a long way that we came
Still got a long way we're going
We're never going to be the same
We carry no regret, did everything we could
With everything we had
Since we first began
Someone said to me
"How's it going to be if it ever ends?"
I don't know will it end? I don't know when
We'll never forget what we did yesterday
I don't foresee it, faced it all
Did our best we learned from yesterday a lesson
We'll never forget what we did
No, we'll never forget what we did
We'll never forget what we did, yesterday
