Even if

2 Be 3

[PRE-CHORUS]
Even if the sun refused to shine
Even if we lived in different time
Even if the ocean left the sea
There would still be you and me
Ever since the start of time
You've had my love
Even before I knew your name
I knew your heart
In the dark of the darkest night
I could see your face
I always knew from the very start
I would find a way
[CHORUS]
Even if the sun refused to shine
Even if we lived in different time
Even if the ocean left the sea
There would still be you and me
Even if the world would disappear
Even if the clouds would shed no tears
Even if tonight was just a dream
There would still be you and me
You've always been and you always will be
The only one
Until forever
The only girl
Until forever
I'll ever love
In the cold of winter's chill
I'll be there to warm your heart
Giving you all of me
For all time
No matter what
[CHORUS]
Two hearts that belong together
Together
From the very start
One love
Now and forever

Now and forever
Nothing can tear up apart
[CHORUS]
[CHORUS]
